Taha Hadj Lakehal

Frontend Web Developer

Profile

As an ambitious Junior Frontend Developer with a year of coding experience, I'm deeply passionate about crafting user-friendly websites with responsive design. Proficient in React, I thrive in collaborative environments, contributing to GitHub projects and staying updated with emerging technologies through online courses.

Work Experience

Freelance Frontend Development - HijjrahHikers (Aktar)
22 March 2024 - Present

- Collaborated closely with BOD Digital's design team and client, gaining insight into web development process.

- Facilitated discussions with developers to finalize landing page design and kickstart development.

- Proposed interactive features like mouse drags, fade-in animations on scroll to boost user engagement.

- Anticipated minimum 94% increase in initial user impressions. Offered strategic recommendations to address budget constraints, suggesting scalable website templates.

- Transitioning to development phase using HTML, CSS, JavaScript, jQuery, React, and Tailwind for optimal user experience

Projects

Calevent – edX Project
3 February 2024 – 10 February 2024

- Developed a website, Calevent, that allows users to discover upcoming events by searching for keywords. Integrated the Ticketmaster API to fetch event data, including prices and locations.

- Contributed to wireframe discussions and provided input on user interface design. Implemented carousel features to display event data fetched from the Ticketmaster API. Designed the website layout and ensured responsivity across devices using HTML, CSS, and JavaScript.

Technologies Used:
HTML, CSS, JavaScript,
